

Q8 Razi EP 2

Advanced lithium grease

Description

Q8 Razi EP 2 is a multi-purpose lithium grease with anti-wear properties and is temperature resistant up to 120°C. The grease is based on mineral oil and has optimum pumpability thanks to its smooth structure. The advanced roll stability of the Q8 Razi EP 2, the anti-wear properties and rust protection lead to a outstanding service life of the grease.

Applications

Q8 Razi EP 2 is used in industrial and automotive applications. Q8 Razi EP 2 is recommended for loaded plain- and anti-friction bearings, bushings and pins in draglines, bulldozers, tractors, excavators, trucks, hoisting equipment, winches etc.

Benefits

- Minimizes downtime which leads to a higher maintenance efficiency
- Advanced anti-rust properties
- Advanced mechanical stability
- Highly resistant to water

Properties

	Method	Unit	Typical
Soap type	-	-	Lithium
Colour	Visual	-	Yellow
Consistency, NLGI No.	NLGI	-	2
Penetration, Worked, 25 °C, 10000 strokes	D 217	0.1 mm	288
Kin. Viscosity Base Oil at 40 °C	D 445	mm ² /s	200
Dropping Point	D 566	°C	202

The figures above are not a specification. They are typical figures obtained within production tolerances.
